Electric Wall-Mounted Units

2 years
Warranty

Benefits

- Safe and silent mode
- Automatic interruption of power supply in case of hydraulic circuit pressure or current leakage
- **Daily scheduling selection for your convenience**
- **Temperature adjustment according to preference**
- **Digital display indicators**
- Small in size for easy installation and space saving
- Environment-friendly
- **2-year guarantee**
- Full operation compatibility to low voltage (LVD) in accordance with the 2006/95/EC Directive

Additional features:

- Hot water for heating and domestic use
- Gradual resistor operation in low voltage for maximum saving in electricity consumption
