Established in 1972 and enjoying a successful industrial tradition, **CORDIVARI** is one of the most important manufacturers in heating and plumbing systems, both in Italy and worldwide. All products comply with the 2009/125/CE (ERP-ECO) European Directive and are certified by the strict PED (Pressure Equipment Directive).

The **CORDIVARI** Boilers feature **Polywarm** coating. The copper U-type heat exchangers with the lower split **at a 45° angle**, prevent any development of the legionella germ.

Also, the boilers have high quality welds, ensuring absolute contact at the joints (EN ISO 2406/96, EN 248/89). Externally, they are lined with polyurethane insulation, 50mm thick.

II & II Energy Boilers

CORDIVARI perfectly combines hygiene and corrosion protection. This is a completely new approach with regard to boiler interior insulation systems using the **powerful Polywarm polymer**, offering greater resistance to high temperatures and corrosion.

Benefits

- Excellent elasticity of inner insulation, resistant to both thermal expansion and mechanical stress
- 100% hygiene and drinking water approved coating, certified to DVGW W 270 – UBA
- Insulation thickness greater than 200mm and zero failure in impact testing (ISO 6277)
- **Resistant to temperatures of up to 95° C** and 20% greater elasticity compared to Teflon without causing deforming or cracks
- Working pressure resistance: **8 bar**
- Detachable heat exchangers offering easy maintenance
- 5 years guarantee

Polywarm without Heat Exchanger

Litres	Dimensions	
	Diameter	Height
lt	Φ mm	H mm
1500	1050	2390
2000	1200	2442
2500	1350	2311
3000	1350	2811
4000	1500	2875
5000	1700	2915

- Boilers without heat exchanger feature the boiler body, insulation, and one magnesium rod.
- Resistor and thermostat are not included.
- Boilers of 2000lt and over feature two magnesium rods.

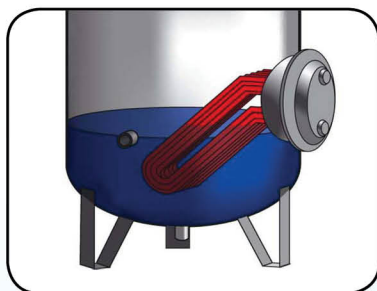

Models of lower capacity are available upon request.

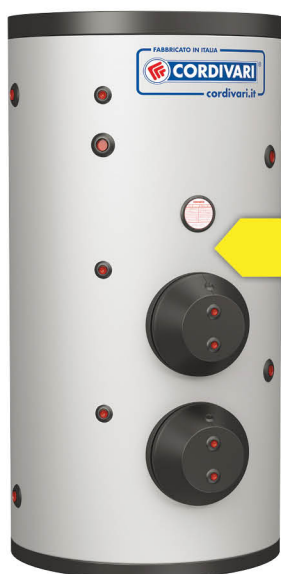

EXTRA II Energy Polywarm with Stainless Steel Exchanger

Litres	Exchanger connection	Exchanger surface	Dimensions	
			Diameter	Height
lt		m ²	Φ mm	H mm
1500	2"	3	1050	2390
2000	2"	4	1200	2442
2500	2"	5	1350	2311
3000	2"	6	1350	2811
4000	2"	8	1500	2875
5000	2"	10	1700	2915

- Boiler sets feature the boiler body, insulation, heat exchanger and magnesium rod.
- Resistor and thermostat are not included.
- Boilers of 2000lt and over feature two magnesium rods.
- Detachable, anti-logionella exchanger.
- Cleaning box.

EXTRA2 III Energy Polywarm with Stainless Steel Exchanger

Litres	Exchanger connection	Exchanger surface	Dimensions	
			Diameter	Height
lt		m ²	Φ mm	H mm
1500	2"	3+3	1050	2390
2000	2"	4+4	1200	2442
2500	2"	5+5	1350	2311
3000	2"	6+6	1350	2811
4000	2"	8+8	1500	2875
5000	2"	10+10	1700	2915

- Boiler sets feature the boiler body, insulation, heat exchanger and magnesium rod.
- Resistor and thermostat are not included.
- Boilers of 2000lt and over feature two magnesium rods.
- Detachable, anti-logionella exchanger.
- Cleaning box.

The company

K. TZANOS SA was established in 1982 and it is a well-established trading company specialised in the field of plumbing, heating, natural gas, and green energy, maintaining long-term partnerships with well-known European and International houses. K. TZANOS SA is operating under the umbrella of TZANOS Group of companies, while owns since 1997 ISOPIPE SA, a factory specialising in the production of insulation material ISOPIPE and TORRENT cast iron condensing boilers. In 2008, TZANOS SA created the H-IT brand aiming at manufacturing high quality-products at affordable prices, for water supply and heating systems.

All products represented by TZANOS Group of Companies are CE certified.
